

# Helping to make it real

"People who know me know how much I dislike process. And when I knew it was time to make my dream real and get that perfect kitchen for my house (I really like to cook), I turned to Deb Dixon and the team at York Traditions Bank, because they keep things really simple. Their personal service -- the way they greet me, and the way they take their customer relationships seriously -- has kept me coming back again and again for other financial needs, like my mortgage, other additions to my home, and for my business as well."
